

KETOPIA SYSTEM

KETOPIA

FOOD & RECIPE SUGGESTIONS

SNACKS

The best snacks for the Ketopia program are lean proteins, eaten in small portions. Snacks should have little to no carbohydrates or sugars.

- Jerky (nitrate-free)
- String Cheese
- Nuts
- Nut Butters
- Hard-boiled Eggs
- Celery
- Cucumbers
- Peppers

PROTEIN

Proteins should be lean and natural. Avoid canned, potted, processed, battered or fried meats, including lunch meats, sausage, and hot dogs. Eggs can be prepared as scrambled, poached, soft boiled, hard boiled or deviled. Limit cheeses to four (4) ounces or less per serving. Keep soft cheeses to a minimum, as they typically contain more carbohydrates than do hard cheeses. You should also avoid any processed cheeses, such as cheese spreads or canned cheeses.

- Turkey
- Chicken
- Duck
- Fowl
- Fish
- Beef
- Pork
- Lamb
- Veal
- Venison
- Wild Meat
- Jerky
- Eggs
- Cheese

VEGETABLES

Choose as many greens as you can. We recommend eating a lot of salads that also include meats, cheeses and dressings.

Low-carb vegetables and greens include:

- Lettuce
- Arugula
- Romaine
- Parsley
- Endive
- Chicory
- Radishes
- Mushrooms
- Chives
- Celery
- Cucumber
- Cilantro
- Peppers
- Olives

With a few more carbs, the following vegetables and greens can be used to supplement meals but should be eaten in moderation.

- Snow Peas
- Cabbage
- Sauerkraut
- Spinach
- Bean Sprouts
- Chard
- Broccoli
- Onions
- Kale
- Zucchini
- Asparagus
- Avocado
- Brussels Sprouts
- String Beans
- Beans
- Summer Squash
- Pumpkin
- Tomatoes

FATS

Fats are an important part of the Ketopia program, but should also be chosen wisely. Watch out for added carbohydrates in anything packaged, and keep serving sizes small.

- Avocado
- Butter
- Ghee
- Macadamia Nuts
- Cashews
- Mayonnaise
- Olive Oil
- Coconut Oil
- Nut Butters
- Pecans
- Almonds

DRINKS

Water! You should drink half your body weight in ounces per day. Coffee and tea with some cream (no sugar) can be used on the program, but not in excess. No soda or juice should be used on the program due to the high amounts of sugar they contain.

TIPS FOR EATING OUT

Keep things simple and stick to low-carb options. A steak or fish with a side of steamed vegetables and butter are a good example. When eating fast food, try to avoid fried foods. A number of places offer protein-style hamburgers, which means the burger is wrapped in lettuce instead of a bun.

SUGGESTED RECIPES

Keto Cobb Salad

1 c. ham
4 cherry tomatoes
¼ c. bleu cheese
2 eggs, hard boiled
2 c. romaine lettuce, coarsely chopped
½ avocado, diced
2 slices turkey bacon

Keto Cobb Salad Dressing

1 T. olive oil

Salt and pepper, to taste

Mix dressing and salad ingredients separately. Pour dressing over salad and enjoy.

2 4-oz. sirloin steaks, cut into strips
1 T. coconut oil
1 small onion, diced
1 clove garlic, crushed
2 small tomatoes, diced
1 t. ground ginger
4 T. apple cider vinegar
Salt and pepper, to taste

Pour oil into a large skillet. Brown steaks on both sides over medium-high heat. When both sides are browned very well, add onion, garlic, and tomatoes. In a separate bowl, stir together ginger, salt, pepper, and vinegar. Add vinegar mix to skillet and stir. Cover skillet and reduce heat to low. Simmer until liquid evaporates completely and serve.

Keto Ground Turkey

1 c. ground turkey
½ c. sliced spinach
3 T. red pepper
¼ c. part skim mozzarella cheese
½ t. fresh basil (optional)
2 T. red onion, chopped
1 t. butter
Salt and pepper, to taste

Brown turkey in butter over medium-high heat. Add remainder of ingredients. Reduce heat to low. Cook until onions are soft, stirring occasionally. Serve.

Cheese and Onion Quiche

5-6 c. Muenster or Colby jack cheese, shredded and divided in half
2 T. butter, plus more for greasing pans
1 large white onion, finely chopped
12 large eggs
2 c. heavy cream
1 t. salt
1 t. ground black pepper
2 t. dried thyme

Preheat oven to 350 degrees. In a skillet, melt butter over medium-low heat. Add vegetables and sauté until onions are translucent and soft. Remove from heat and cool. Butter two 10-inch quiche pans or deep pie pans. Put half of the shredded cheese in the bottom of each buttered pan. Add half of the cooled vegetable mixture to each pan in an even layer over the cheese.

Crack eggs into a large mixing bowl. Add cream and spices, then whisk together until well mixed and frothy. Pour half the mixture over each pan of vegetables and cheese, and use a fork to gently and evenly distribute cheese and vegetables into egg mixture. Slide quiche pans into the oven, leaving an inch of space between the pans. Bake for 20 to 25 minutes, or until set, puffy and slightly golden in the center. Quiches are done if you insert a knife into the center and it comes out clean. Cut each quiche into six equal sized servings. Serve immediately, or let cool and refrigerate or freeze. These will keep in the freezer for two weeks, or the refrigerator for one week.

Did You Know?

Many leading scientists, medical professionals, and nutrition experts agree the ketosis lifestyle is the pinnacle of health and wellbeing. Ketosis is a natural metabolic state where the body burns fat for energy rather than carbohydrates. The majority of people today have sugar-burning bodies instead of fat-burning bodies. Because of having more balanced blood sugar levels, those with fat-burning bodies typically experience better energy and fewer cravings.

ForeverGreen's [Ketopia](#) is a three product regimen consisting of KetonX™, Dough Bites™ and FIXX®. The patented KetonX is a drink that shifts the body into a state of nutritional ketosis within hours. Without KetonX, this typically takes days of fasting, detox or extreme diets.

The product is a safe and simple way to achieve ketosis without the negative side effects of a typical ketogenic diet. Dough Bites are a cookie dough snack that are high in fiber and probiotics and act as a "phantom" carb. They are filling; help reduce cravings and keep blood sugars level within the normal range. Finally, FIXX is a chocolate meal replacement shake that gives the body energy. Users are able to track their ketosis levels with the Peetopia Stix™.
